

becomes hard, white, and slignuy painful, attended with an itching sensation and marked by a thick, cold discharge. Tire Shalyaja (traumatic) type of Bhagandara is also designated as Unmargi. A sore about the anus owing to the pricking of any thorny substance into that region, if not properly cared for from the outset, is converted into a tyoe of Bhagandara which is called Unmargi. All types of Bhagandara are extremely priiofiij and obstinate*. A case of ttnagandara in which flatus-, stool, furme, semen and parasites are found to be ejected through the incidental sinuses should be regarded as incurable.

Incidentally I shall deal .-with'the Niddqana of Nadi V-'ana (sinus), O Sushruta. The pas'in a fully suppurated Abscess or swelling, if not evacuated -at the proper time, begins- to infiltrate and burrow into thg Underlying tissue*, producing sinuses, whitih constantly discharge pus. In the Vataja type- of Nadi-Vraiaa the sinuses become narrow, provided with extremely narrow orifices, sand are .attended with ari aching pain in their inside A frothy pus **is** discharged more in the night than in the .clay-from thelse sinuses. In the Pittaja type of Nadi Vrana, fever, thirst and'an intolerable burning sensation in the- sinuses are , found to supervene. A hot, yellow pus is discharged from.thede sinupes^rnore.in the day than in the .night, in tlie'K^phaja type of Nadi .Vra^a the sinuses become hard, and *re market) by an itching sensation and an extreme, pair>_r exuding a large,
